[ ] - Please make a note of Rostow's interest in these papers. I also suggest you call Bob Grey and ask whether timing or any particular focus are of importance to them for any of these projects. Also note that this is the kind of request that can come through to me noting Kovner's comment that INR has no objection to this.

WASHINGTON

January 24, 1967

Mr. William N. Morell, Jr.  
Director for Research and Reports  
Central Intelligence Agency

Dear Bill:

I am enclosing a listing of ORR research reports in process on which Rostow's office has noted items of special interest to them. They would like to have a progress report on these projects with some idea of estimated date of completion.

I see no reason why your reply need be directed through INR unless you find it more convenient. We would, of course, like to see such "Reports in Process" listings if they are issued on a regular basis.

Sincerely,

*Miet*

Milton Kovner  
Chief, Bloc International Economic  
Activities Division, RSB
